```
                 <h2>My Educational Goals</h2>
              <p>My educational goals are to expand on my knowledge of web
design by taking simular courses at Sinclair in 2018. Then transferring to a
four year college hopefully by 2021.
                      I hope to successfully learn different forms of HTML
during the summer and college breaks. I also hope to successfully apply what I
have learned so far, and what I will learn in the future, in a future career.
</p>
              </article>
              <article>
                  <h2>My Employment Goals</h2>
                  <p>My employment goals are to work at home as a web
designer by 2020. Or to work at a company for web design after college.
                            I really enjoy web design and hope to pursue it
as a career. I also hope to, one day, teach web design by 2040.</p>
